Every tender is a business decision.
Make it with the full picture.

THE PROBLEM

Good tenders slip past
Hundreds published daily; the right ones are found too late.

New sector, no expertise
Diversifying means hiring sector-wise tender & estimation people.

Teams stretched at peak
Too many bids at once; quality drops or tenders are dropped.

One estimate, no cross-check
A single costing view can miss risk — or money.

Pricing in the dark
No view of how other bidders are pricing right now.

OUR SOLUTION

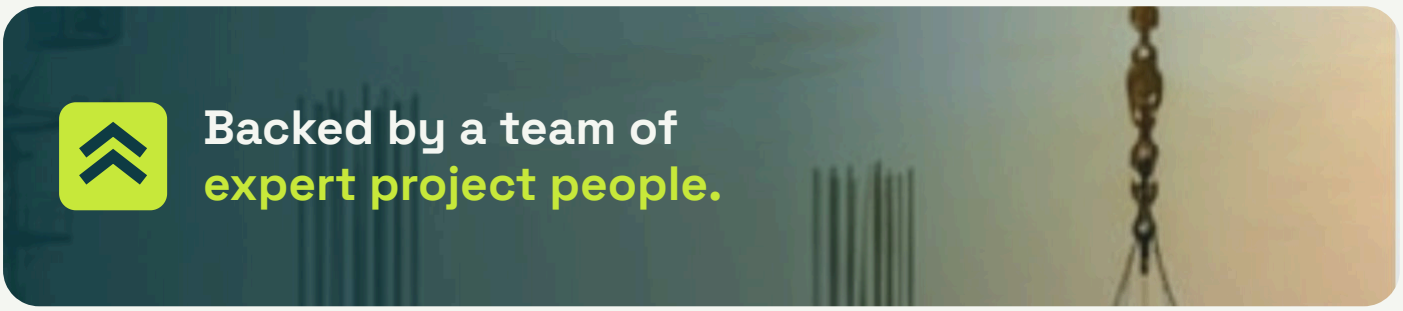

Daily tender alerts
Filtered, summarised and on your WhatsApp.

Sector expertise on call
Enter new sectors without new hires — we do it all.

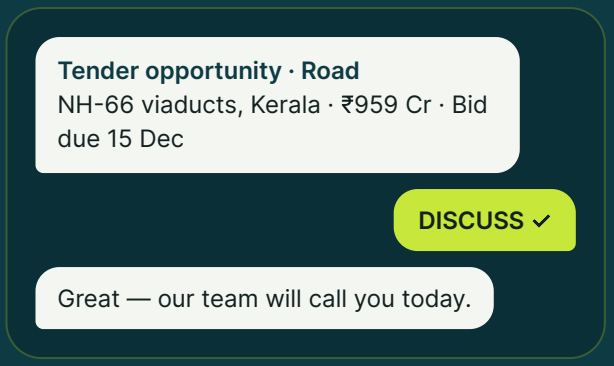

Capacity when you need it
Sublet the tender load to us — no added manpower.

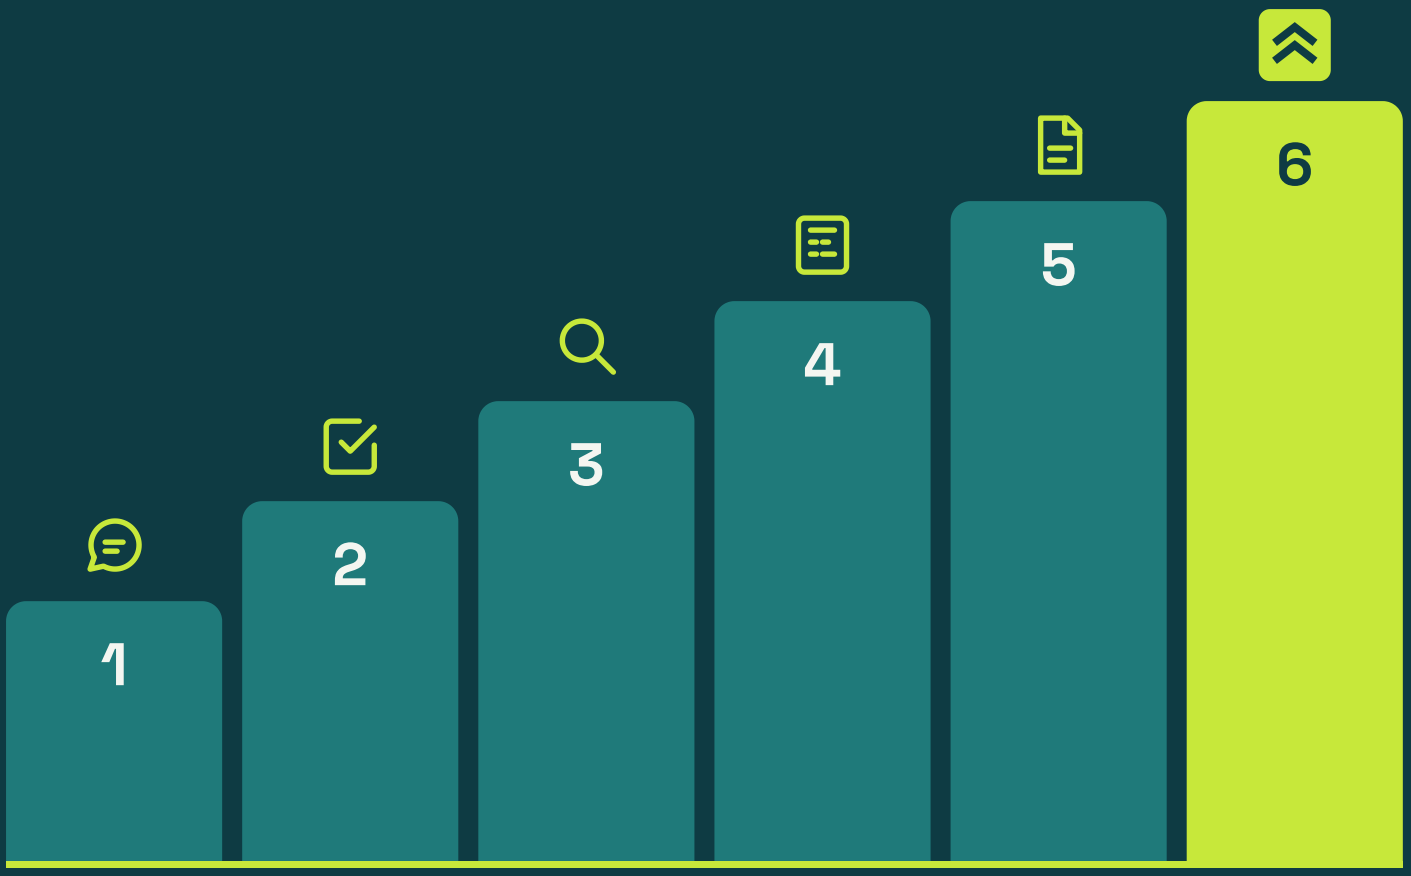

A second, independent estimate
Ours + yours = accurate project costing.

Live bid pricing trends
Know where the market is pricing before you quote.

From WhatsApp alert to submitted bid.

DIVERSIFY

Entering a new sector?

No need to hire sector-wise tender and estimation experts. We do everything.

Roads → Metro | Buildings → Water | Civil → Transmission

ADD VALUE

Have your own tender team?

Your estimate + Our estimate = Accurate costing

Compare both and decide your tender price with confidence.

SCALE UP

Too many tenders at once?

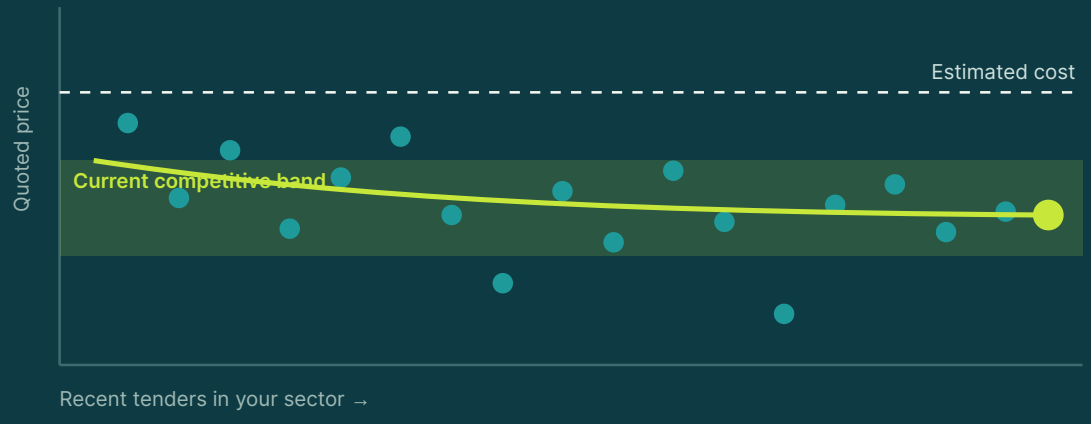

Your team | Sublet to us

Hand over the extra load. No need to increase manpower.

Don’t price in the dark.
See the market first.
